

UPCOMING EIS/EIR EVENTS

Analytical Tools Technical Work Sessions 6/18-6/21
No Action Alternative Workshop 7/11
Analytical Process Workshop 7/25

Analytical Tools Work Sessions

6, three hour focused meetings to discuss tools for analyzing consequences of alternatives as well as for refining components. Invited specific folks with analytical expertise in these areas and requested PCT to send agency representatives knowledgeable in these areas.

Expected Product: Understanding of approach; assist program team in refining approach.

Location/Time: **Note, there has been a change in the water management sessions. There will only be one and the focus will be on developing the appropriate approach rather than providing a sense of what we have completed.** All sessions held in Room 1131. Water Management 6/18, 9-12noon; Water Quality 6/18, 1-4pm and 6/19, 1-4pm; Economics, 6/20, 9-12noon; Riverine Species 6/21; 9-12noon; and Delta Species 6/21, 1-4pm.

What's Next?: Work Session packet distributed 6/5-6. See analytical process workshop

No Action Alternative Workshop

One half day workshop to present results of screening efforts to identify actions in the no action alternative and cumulative effects section. Also will include a presentation of existing conditions.

Expected Product: Understanding of results of screening; assist program team to refine.

Location/Time: Sacramento Convention Center 9-12 noon on 7/11.

What's next?: Draft results of screening to CALFED agencies 6/13-6/25

Workshop material distributed 7/3

Workshop 7/11

Review revised No Action 7/26-8/6

Analytical Process Work Session

Full day session. Presentation in AM on the complete analysis process from existing conditions to analytical tools to expected results. Afternoon will have breakout sessions focusing on tools/models.

Expected Product: Understanding of approach; assist program team to refine.

Location/Time: Convention Center am-4pm.

What's Next?: CALFED Agencies review draft workshop packet 6/25-7/8

Distribute workshop material 7/12

Workshop 7/25

Review revised analytical tools 8/12-8/20
